 - So much here—highly recommend it!
 - Loved the interactions.
 - What a fun session!
 - Great, entertaining session.

Presenter notes and explanations:

- The presentation was delivered at the Coronado Resort, Walt Disney World, Florida
- The presentation was the closing session for many of the attendees
- The audio in this room was of poor quality. The room itself was poorly designed and lacked muffling that would have prevented sound from bouncing around the room. None of the available audio equipment sound enhancement techniques were able to prevent the issue.
- The room had 22 tables set for 10 per table. The attendees filled all those seats and many more were leaning against walls or sitting on the floor.
- The presenter provided a handout with additional information, but the Training organization only provided electronic copies.
